User's Documentation - Overview

This documentation covers the following topics:

- **Introduction** — Explains how to use this documentation and lists other ISPF documentation.
- **Logging on** — Describes how to log on to Natural ISPF and provides information about the online system: it introduces you to the Main Menu and explains the structure of system screens. A final subsection describes logoff procedures.
- **Command Logic** — Explains Session Commands, Function Commands and Local Commands and their way of functioning.
- **Useful Features** — Describes handling and navigational features, functional features and additional features in lists.
- **Common Objects** — Explains all the functions you can perform on common objects, that is, objects available in all or any operating environment.
- **OS/390 Objects** — Provides information on all the functions you can perform on objects only available in an OS/390 environment.
- **PANVALET Members** — The PANVALET facility allows access to PANVALET members, which you can maintain using Natural ISPF functions.
- **CA-LIBRARIAN Members** — The LIBRARIAN facility allows access to CA-LIBRARIAN members, which you can maintain using Natural ISPF functions.
- **VSE Objects** — Explains all the functions you can perform on objects only available in a VSE/ESA environment.
- **BS2000/OSD Objects** — Describes all the functions you can perform on objects only available in a BS2000/OSD environment.
- **Profile Maintenance** — With the profile maintenance facility, you can modify your user profile according to your personal requirements when working with Natural ISPF.
- **Editor - Overview** — Provides an overview of Editor commands available in the Natural ISPF environment.
- **Command Reference** — Lists, explains and provides examples of all Natural ISPF session commands, function commands and local commands.
- **Keyword Parameters** — Contains a list of all possible keywords and their synonyms that can be used as keyword parameters on Natural ISPF function commands.

For details on how to navigate within the documentation, see Using the Documentation.
